- Loved this class! Loved this teacher!
- Great class.
- My favorite class this semester. I learned a lot and I will always remember what I learned and use it to fulfill my career.
- Very hands on and interesting.
- The class description and subject matter did not match. I was expecting an overview of producing a play. Instead we learned how to draft (only one aspect of production).
- Awesome class!
- She was fantastic and challenging.
- It was fun!

What, if any, specific recommendations would you make to this instructor for how to improve his or her teaching of this course?

- Address the class as a group, individually wastes too much time.
- Can't get any better.
- None! She's amazing!
- More time for the class.
- For center line section drawing they should be broken down into stages possibly with each stage on a piece of tracing paper.
- None.
- None.

Spring 2012

FTCA 2100-001

What general comments would you like to make regarding this course?

- The course provides an insightful look on the work that goes into a theatrical production.
- I was confused as to many objectives to this course. I needed more descriptive instruction, as many of the projects seemed to require advanced drafting skills.
- It's hard for me, but others it's simple.
- This course feels antiquated due to hand drafting. Also previous knowledge of practical lighting experience is needed.
- Few!
- Very informative. Interactive.

What, if any, specific recommendations would you make to this instructor for how to improve his or her teaching of this course?

- More segmented check-ins on everyone's progress. Project-based classes make keeping up w/out supervision difficult.
- Clearer objectives.
- Pay attention, ask questions, get involved one on one.
- More clarity in explanation of specific techniques.

What do you consider to be this instructor's teaching strengths?

- Knowledgeable.
- Very talented.
- She know her stuff.
- Genuine interest in students' success.

What other general comments about the instructor or course would you like to make?

- This course is especially challenging for film majors with no background in theater lighting. I was surprised after a few weeks in that I was allowed to register as I took no prerequisites for this 2000 level class. The precursor should be mandatory as this is totally different and unrelated to film lighting.
- If you like theater is good class.

FTCA 4160-001

What general comments would you like to make regarding this course?

- Yay this course! Learned a lot from the discussions and hands-on time.
- Very interesting look at stage lighting but felt that I wasted time in some of the more note oriented classes and wish we had more projects.
- Super fun and immersive class that allows students to get hands on lighting experience.
- Was a lot of fun learned so much about lighting design this semester.

What, if any, specific recommendations would you make to this instructor for how to improve his or her teaching of this course?

- More time in NIMS theatre.
- More projects like the 2 thousand level course, also more on theatre light in general.
- More hand on learning before throwing us to wolves.

What do you consider to be this instructor's teaching strengths?

- Intelligence, talent, communication skills, patience.
- Knowledge of subjects.
- Knowledge and enthusiasm.
- Very experienced, funny, easy-going, understandable.

- Hand on activities and creative encouragement. A kind of honesty w/students that other professors barely can give.
- Very good at what she does.

What other general comments about the instructor or course would you like to make?

- The theatre, as our classroom, should not be available to be booked by other people during our class time. There were weeks where we were unable to be in the catwalks hanging lights at all because the space was booked, and our hands were tied as far as looking at designs/working on our assignments / doing anything more than discussion. I am aware that is not the instructor's fault; I'm not sure who is in charge of booking the space, but it's ridiculous that a movie screening could boot a class that meets once a week out of the space it needs to meet in. It's like asking a woodshop class to meet in a room with no saw or wood.
- Diane Baas is a perfectly lovely person and fine instructor.
- Structure more about projects but a more critical analysis of the projects
- Diane is a great teacher and her class is fun and creative.

FTCA 5160-001

What general comments would you like to make regarding this course?

- Interesting class – enjoyed the light studies & learning from Dian's know-how & understanding of machines & theory
- This is a good introduction to the subject. The conceptual elements and the technical side could use some more integration.

What, if any, specific recommendations would you make to this instructor for how to improve his or her teaching of this course?

- I think she's got it. Be nice if there was more stage space so we could work with lights more often.
- I thought that the course suffered somewhat from the visual difficulty of finding a pace between undergrads and grads. Maybe de-emphasizing the planning/plotting stage (esp. since the school doesn't have the technology available) in favor of more work with lights?

What do you consider to be this instructor's teaching strengths?

- Know-how, smart, helpful, good knowledge of light, lights, and other subjects
- Diane brings a good deal of technical experience to the course and also is able to empower her students to think critically. Also this course had the most hands-on technical work I've had in any course, so that's an achievement.

What other general comments about the instructor or course would you like to make?

- Thanks for letting me in the class – Sorry my handwriting sucks – stand up and using uneven table.

- I wish general assignments requirements were written down and given to us.
- Very insightful on the visual aspects of art and film
-

What, if any, specific recommendations would you make to this instructor for how to improve his or her teaching of this course?

- I think she probably needs to encourage more discussions on visual projects and talk about. But the rest is very clear and good.
- Make participation mandatory, 1st class teach people how to assess other's work, give art HW, don't wait till last 10 mins of class to explain next assignment
- More in class project time.
- Think its pretty good as it is. She was cool
- Don't let lazy students take advantage of you... It holds back other students who participate and want to learn

- More examples of drawings.

What do you consider to be this instructor's teaching strengths?

- She's very patient and kind.
- Courteous, objective, shows interest in what she does even if doesn't express it clearly

What, if any, specific recommendations would you make to this instructor for how to improve his or her teaching of this course?

- None!
- I wish the course would have been more hands on learning about diff kinds of lights
- Discuss lighting design in film as well. Film lighting is very important and provides a newer outlook on lighting design.

- Keep doing what you're doing.
- More activities like at the beginning of the semester

Areas for Improvement		1-3 of 3
	Recommendations for the instructor	
1	Provide more effective communication with students/clearer course outline.	
2	To slow down lessons with measurements.	
3	Sometimes the lectures were a little hard to follow.	

Instructor's Strengths		1-6 of 6
	What you liked most about this instructor / course	
1	Hands-on projects and interactive lectures on the physical aspects of stagecraft with tools and demonstrations gave me an excellent understanding of how the objectives in this course worked.	
2	Diane is one of the most chill and easy-going professors in the film department. Any class she teaches I learn a lot.	
3	I actually love how patient she is. She really takes out the time to help each student.	
4	Loved helping us learn, and was 100% about our safety in the shop.	
5	It was easy but it was also a productive use of my time.	
6	Diane is super cool and I've learned so much during this course. I definitely didn't think I was capable of doing all the things that I've had to do in this class... like anybody just looking at me would be like "oh no don't put her on the saw she'll break a nail" but Diane never underestimated me like that. In my life I think I've been treated like I'm too delicate to do anything and it's affected the way I saw myself. I've started to second guess myself and think of myself as "weak." But in stagecraft I've learned that I CAN use power tools and build things and be strong and "handy" and all those awesome things... and yeah, okay maybe I DID break a nail but I got over that real quick when I saw that I built something real with my hands... and nails grow back anyway! Thanks Diane for teaching me that I'm not weak, and delicate, and powerless. I'm as powerful as a table saw! yay stagecraft!

Recommendations for the instructor	
1	Diane is life.
2	A rubric for the final project or at least a written explanation could have been provided.
3	Be more assertive. Use your authority. You are one of the few faculty members who give a damn about undergraduate students. You don't cater to wannabe actors, and neither should your courses. Test students. Give us bad grades. An artist with your amount of talent and experience should not be an easy pass.
4	I think to make the class more fun instead of just power points is to have everyone watch a film and make comments are the style of the set and props. Or bring in their own film recommendations.

	Recommendations for the instructor	
1	The only thing I have to suggest is not letting people choose partners until later in the semester if at all. I frequently had the same group partners, and while they were (generally) good partners, I would like to have experienced more/other group dynamics.	
2	The course is absolutely perfect.	

Instructor's Strengths		1-4 of 4
	What you liked most about this instructor / course	
1	I loved every second of this class, and Diane's teaching. Never have I encountered a professor so willing to go above and beyond for her students, way above and beyond! All while running all of UNO Theatre productions, and giving us fun and hands on lectures and creatively challenging projects all semester. Because of Diane Baas, I am more prepared to enter the professional world of theatre. I would take any one of her courses over and over again because of how truly valuable her insight and direction is!	
2	Very passionate and engaged in lighting design; she shows much interest in the subject	
3	This class not only taught me how to properly construct a light design, but also allowed me to express myself through the art of painting with lights. Diane is very knowledgeable in this matter and she conducted her class to be very expressive, and not judgmental.	
4	Literally my favorite class I've ever taken at uno. Super hands on and I actually learned a lot. This semester, I signed up for 18 hours, so that I could drop a class I didn't like. This class was my only MW class. All my other classes were on T&TH, so I went into this class thinking "oh I'm totally going to drop this class," but clearly that didn't happen. I fell in love with the class after the second or third meeting. The instructor kept the class interesting and fun. She was always willing to help with anything and was enthusiastic with everything she taught. I hope I will be able to take the other lighting classes in the future.

Areas for Improvement	1-2 of 2
Recommendations for the instructor	
1	She's awesome! Funny.
2	Diane had a really hard time explaining what she really wanted out of these assignments to the class, so a good number of students were left confused as to what exactly she wanted when starting the class off. She also didn't do that good of a job explaining what the overall ideas of the different parts of design were, at least not in that well of detail as many would've liked.

Instructor's Strengths	1-3 of 3
What you liked most about this instructor / course	
1	Knows her stuff.
2	She does seem to have some enjoyment in the field she works in, especially in the overall visual element of theatre. She can also provide some decent feedback on a student's work once it's been submitted, as far as overall improvement on the assignment goes.
3	Professor Baas is a very knowledgeable artist and she really guides us well. She has very insightful things to say about our work and really wants us to understand what she is talking about. I also liked how nice she was even though many people in our class were rowdy and acted like buffoons. She held herself together and never really made it a big deal. It was impressive. Although I wish more students tried harder to appreciate the knowledge she was trying to impart

	Recommendations for the instructor	
1	I absolutely adore Diane and Kevin as instructors. Everything was pleasantly explained and very educational. It never felt like class, felt like cool people just hanging out around the theater learning. I look forward to the next session with them. My only issue this semester had nothing o do with them or their teaching habits, but our TA was very dissatisfying. This TA never introduced herself, only began barking demands in a condescending voice. I later learned she goes by "Missy". She made it very unpleasant to be in class. I have no problem with taking direction however I am an adult and this TA treated me like a child. You give respect to get it and she had 0 respect for us. I would prefer not to work with her again but other than her, I LOVE THIS CLASS!
